More power to play with.

iPod touch gives you an amazing gaming experience, thanks to the A10 Fusion chip. The action is smoother. You see greater detail. And everything feels more realistic.

A10 Fusion chip

The A10 Fusion chip brings up to twice the performance and three times better graphics to iPod touch[2] — while still delivering great battery life. It powers augmented reality games and apps. And it makes everything you do feel faster and more fluid.

Up to
2x
faster performance

Up to
3x
better graphics

Support for
AR
games

4-inch Retina display

iPod touch gives you a beautiful canvas for your messages, photos, videos, and more. Everything is sharp, vivid, and lifelike. All on a device that's 6.1 mm thin and 3.1 ounces, so you can take it anywhere.

Apple Arcade

Apple Arcade is a gaming service that lets you play over 200 groundbreaking new games. All you can play, online or off, without ads or in-app purchases. It's like having an entire arcade with you.

Augmented reality. Fun that goes beyond the screen.

Now you can explore amazing, immersive augmented reality experiences on your iPod touch. You can hold the cosmos in your hand. Virtual monsters can invade your neighborhood park. And you and your friends can have robots battle it out right on your desk.

iOS is the world's most advanced mobile operating system.

iOS brings iPod touch to life in incredibly personal and powerful ways. You have access to millions of apps and games from the App Store. It's easy to be creative and expressive when connecting with friends. And advanced technologies protect your privacy.

Messages

Send free messages over Wi-Fi to anyone on an iPod touch, iPhone, iPad, or Mac. And add some personality to them with animated text effects, stickers, and more. You can also share locations and links. Name your group chats. And mute or leave the conversation whenever you like.

Group FaceTime

Now you can have a FaceTime video or audio call with up to 32 of your friends at once.[3] The tile of the person speaking gets larger automatically, so you'll never lose track of the conversation. And you can start the party right from a group thread in Messages.

Screen Time

Apps help us do so many extraordinary things that we can sometimes lose track of how much we use them. Screen Time helps give you a better understanding of the time you and your kids spend using apps, visiting websites, and on your devices overall.

1. Available space is less and varies due to many factors. A standard configuration uses approximately 10GB to 12GB of space (including iOS and preinstalled apps) depending on the model and settings. Preinstalled apps use about 4GB, and you can delete these apps and restore them.
2. Compared with the previous-generation iPod touch.
3. FaceTime calling requires a FaceTime-enabled device for the caller and recipient and a Wi-Fi connection.

Some features may not be available for all countries or all areas. View complete list.
